

Nro. De Control :

LEVEL 3

PART 5 – SPEAKING

20

Estimated time needed: 90 minutes.

PART A

Speak about two of these topics at length.

- Military Service
- Humanitarian Assistance
- The Military and the Media
- The Laws of Armed Conflict
- Hostage Rescue
- Women in Special Forces

PART B

Discuss together what course of action the commander of Special Forces Team Delta may follow in the following situation:

MISSION

Your primary objective is to find and extract two French aid workers if they choose to leave.

EXECUTION

You will be inserted by parachute. Your drop zone is about 6 km south of the refugee camp. Once you have got your package, you will proceed to your extraction point where you will be extracted by helicopter, 3 km northwest of the refugee camp, LZ Alpha. Our presence on the ground will be considered hostile.

RULES OF ENGAGEMENT

Defend yourselves only if fired upon

ESCAPE AND EVASION PLAN

Patrol to the border along the Tutti River and cross the border at Duddi

You arrive at a refugee camp and the aid workers tell you that a nearby refugee camp was attacked this morning and more than 400 refugees were killed. They also tell you that there are about 45 children at this camp and another 40 wounded people. Chances are they will all be

killed if they are left behind. You radio to your command post for instructions but communications are down.

Decide on a course of action about

- *The children*
- *Aid workers*
- *The wounded refugees*
